PROJECTS

Jeopardy Trivia   Dec 2020

Crafted a web app to allow users to play old Jeopardy questions but in a multiple-choice format. Utilized RiTa API and JService API to generate unique questions and answer choices. Optimized for mobile use for on-the-go entertainment.

Audio Visualizer   Sep 2020

Constructed a web app to visualize any audio. Implemented JavaScript to allow the user to upload any audio file of their choice to use. Manipulated HTML5 Canvas API to allow for unique visuals for different audio levels.

Tour New York City   Dec 2019

Completed my first interactive website using HTML, CSS, and JavaScript. Maintained a survey with JavaScript and PHP to send an email to me with the users' answers when the survey is submitted. Devised a custom map with interest points using Google maps API.
